

# TECHNICAL DATA SHEET

# STEEL RAISED FLOOR SYSTEM

## FS1000

Floor panel (HPL finish)

Steel stringer

Screw for fastening the stringer to the pedestal

Flat head pedestal

Base plate glued to the subfloor

### PANEL

Dimensions	600 x 600 mm
Panel thickness	35 mm
Surface of the panel	1.2HPL finish
Panel material	Steel plate and cementitious infill

### SUBSTRUCTURE

Pedestal module	FFH60cm
Pedestal material	Galvanized steel
Adjustable height	± 25mm
Stringer	21*32*570 mm

### LOAD VALUES

Concentrated load	4450 N
Impact load	≥670N
Ultimate load	≥13350N
Rolling load	10times 4450N & 10000times 3560N
Distributed load	23000 N/m <sup>2</sup>

### FIRE PROTECTION

Building material class DIN EN 13501-1	Class A
